Welcome to this luxurious mansion in total seclusion surrounded by olive trees and panoramic, stunning views in all directions! When designing this unique villa, it has been designed that you will see the view where you are. For example, you have placed the windows so that you can enjoy the view regardless of whether you are standing or sitting down. From the terraces, in addition to the view, you can also enjoy a dazzling night sky. Sit down in the jacuzzi, pour something cool and bubbling in the glass and lean your head back and enjoy! As you enter through the fully automated gate, you will soon see this spectacular house. Before you reach the large car park with space for several cars, you pass the orchard with, among other things, orange, mandarin, lemon and lime trees. Before you reach the entrance, you pass beautiful plantations and a waterfall. At the back there is a putting green with several holes where you can train for the next round ...

key features
