This all on one level villa is to be built in the Empedrola area of Calpe, a quiet and green area, just a short drive to the shops, restaurants and sandy beaches. The villa will be built onto a flat plot of 1000m² with electronic gate for access. You enter the property through the principal door which is covered by a pergola type overhang. You enter into a hallway where you will find a guest toilet and a utility room, then you enter a spacious living/dining/kitchen area with glass sliding doors leading out to the pool terrace. Off the entrance there is a hallway which leads to two double bedrooms with a shared bathroom and the master bedroom which has an en-suite bathroom. Externally there is a good size pool terrace, which is part covered, a private pool with integral steps and lights and a pool shower. The garden will be a mixture of white pebble stones and concrete. The perimeter walls will be constructed from block, plastered and then painted...
